Henk van Lith from Wadenhoijen, Netherlands specialises in interiors for Ferraris.

// The new interior of the Ferrari 330 America, s/n 5037GT

Author Ed Heuvink and car enthusiast Yvo Alexander – who has been the owner of a 1963 Ferrari 250 GTE for over twenty years – have joined forces to create this book about the 250 GTE.

The contents combine history, facts and figures, reproductions of historic documents as well as both black & white archive photos and more recent colour photos of various Ferrari 250 GTEs.

Designed by Pininfarina, the Ferrari 250 GTE was the first large-scale production, four-seater Ferrari in the early sixties with nearly one thousand examples built in four years.
